ANTHONY MASTANDUNO
WEB DEVELOPER

WEB DEVELOPER

I'm looking for a junior front-end web developer position. A recent graduate of Columbia's Full Stack web development bootcamp. I'm armed with the passion, enthusiasm, and the technical proficiency of HTML5, CSS, JavaScript, jQuery to create engaging and dynamic websites and/or web applications.

PROJECTS

GIPHY WEB APPLICATION – a web application that utilizes the Giphy API and JavaScript to dynamically populate the DOM with GIFs based on user input.

CRYSTAL GAME WEB APPLICATION – a web-based game that utilizes JavaScript to add numbers, randomly generated and hidden inside crystals, which the user clicks in an effort to match randomly generated number.

BESCIPE WEB APPLICATION – a web applications that utilizes the Yummly API and JavaScript to generate recipes and populate the DOM based on user input.

TRIVIA GAME – a web-based game that utilizes JavaScript to present the user with a list of questions they have to answer and submit before the end of 90 seconds.

EDUCATION	COLUMBIA UNIVERSITY	FULL STACK WEB DEVELOPMENT

SKILLS: HTML 5, CSS, Bootstrap, JavaScript, Parsley.js, Node.js, GitHub, AJAX,
