WEB DEVELOPER

A junior front-end web developer position. A recent graduate of Columbia's Full Stack web development bootcamp. I'm armed with the passion, enthusiasm, and the technical proficiency of HTML5, CSS, JavaScript, jQuery, Bootstrap to create engaging and dynamic websites and/or web applications.

TECHNICAL SKILLS

HTML5, CSS, Bootstrap, JavaScript, Parsley.js, Node.js, GitHub, Firebase, AJAX, APIs, MySQL, the command line

---

PROJECTS

GIPHY WEB APPLICATION – utilized the Giphy API and JavaScript to dynamically populate the DOM with GIFs based on user input. https://odavom.github.io/GiphyApp/

CRYSTAL GAME WEB APPLICATION – utilized JavaScript and JQuery to add numbers, randomly generated and hidden inside crystals, which the user clicks in an effort to match randomly generated number. https://odavom.github.io/Crystal-Game/

BESCIPE WEB APPLICATION – utilized the Yummly API, Firebase, and JavaScript to generate recipes and populate the DOM based on user input. Utilized GitHub extensively for this group based effort. https://camiloagudelo4368.github.io/Becipe/

TRIVIA GAME – utilized JavaScript to present the user with a list of questions they have to answer and submit before the end of 90 seconds. https://odavom.github.io/TriviaGame/
